**04/19 Chairman's Report**

Thank you to the committee

A stable year of good financial growth, no mass departures due to rise in membership costs and consistently busy this year meaning the SCR is still functioning in its capacity as a space (physical and metaphorical) where members meet, socialise and be entertained away from University's increasingly corporate structure.

We have had some great events. The excellent Burns Night, replete with fantastic entertainment and superbly organised by Margaret. We've had a number of tastings, from the inimitable Jim Gillespie (wine and whisky) who we're still waiting on to deliver on the wine. And through Stephen's contacts Pierre and Ben. There was the traditional tour of the joules brewery where Becky managed to on the fly negotiate us an extra 45 mins drinking. And the classical society outings, one of which, the coach trip to the Rollright stones and Ashmolean museum almost didn't happen this year but was saved at the last minute. We also had some slightly different events – watching the rugby, some sad leaving parties, Tai Chi, a Yew Knight Supper with Keele Village Hall and the new and incredibly popular cocktail nights. And our first pint of science event – which we can hopefully repeat in the future. Just to let everyone know that the SCR pledged some money to the Pint of Science organising team and the event was a huge success – 7 out of 9 events sold out with just over 300 tickets sold! Last but not least I think we agree that Friday bar nights have gone from strength to strength and

are now consistently busy, this is a real asset to the society and a huge thank you to everyone involved in organising and volunteering for those.

There have also been developments in bring the SCR up to date. Our facebook is more active than ever before, we've spread onto the University's web pages for new recruitment. We've also reupholstered the chairs! And we have added new lampshades to the common room. Which look great and there are plans for more major refurbishments in the bar, so members can enjoy our area to its maximum potential. This includes an additional fridge which may mean we never serve a warm beer again...

Looking forward, I've already mentioned the bar refurbishment and think it is right to invest in our members and their enjoyment of the society and space, we will keep you posted on that. I would also like to increase our new members. Margaret has mentioned new subscriptions were a little bit down so we will look at ways we might be able to increase these though next year.

All in all, it has been another great year, not so eventful in terms of fighting for existence but one driven by great activities, friends, improvements in the bar and consistent activity and its one that leaves us in a strong position to reinvest in the members.

#### **05/19 Treasurer's Report**

*Accounts for 2017-2018.* The 2017-18 accounts are the first compiled by the new accountants. For a statement of the account see the minute book. Stephen Clifford reported that there was again a healthy surplus this year, thanks largely once more to the Friday night bar sales and wine tastings are now listed separately.

As the SCR had benefitted from a surplus again this year, reinvestment was being made with refurbishments planned. The proposal that the accounts be agreed and adopted was **carried** unanimously.

#### **06/19 Election of Committee for 2019/2020**

The motion that the Committee's nominations for the SCR Committee be accepted *en bloc* was **carried** unanimously:
